February 2, 2006

Colonel Ronald N. Light  
District Engineer  
Sacramento District  
U. S. Army Corps of Engineers  
1325 J Street  
Sacramento, California 95814

Dear Colonel Light:

This letter conveys the Department of Fish and Game (DFG), Grizzly Island Wildlife Area, Central Coast Region's intent to participate in feasibility studies and/or other actions in the development of the Suisun Resource Conservation District's (SRCD) Levee Maintenance proposal and potential as one of the non-Federal sponsors consistent with the CALFED Bay-Delta Authorization Act (Public Law 108-361).

DFG understands that the type, cost, and scope of actions will be determined and specified later if selected for development and/or implementation pursuant to the Act. DFG also understands that if the SRCD project is approved for implementation and if DFG ultimately decides to partner with SRCD and funds are available, DFG may be responsible for sharing the cost of planning, designing, and implementation of the project with the U. S. Army Corps of Engineers; providing all necessary lands, easements, rights-of-way, relocations, excluding railroads, and suitable borrow and dredged or excavated material disposal areas; and accomplishing operation, maintenance, repair, replacement and rehabilitation of the project.

Please note that this letter of intent is not an obligation of funds. We look forward to working with the U. S. Army Corps of Engineers, SRCD, the State of California, and other pertinent CALFED agencies and stakeholders on this important project.

If you have any questions, you may contact Mr. Larry Wyckoff, Senior Wildlife Biologist, at (707) 944-5542; or Mr. Eric Larson, Deputy Regional Manager, at (707) 944-5528.

Sincerely,

Robert W. Floerke  
Regional Manager  
Central Coast Region
